

This photo shows the result of wearing Nikken Magsteps. The gentleman's legs were black all the way to his toes, and after 4 days of wearing the Magsteps in his shoes, you can see the result of his feet and halfway to his knees where the skin has returned to a healthy pink colour. He was going to need a double amputation of both legs ~ now not necessary due to Nikken Magsteps.

"Waka" 46 Black from toes down for
Papa's Bow-ankow 4 days w/ magsteps
